

***Keys to Overcoming: Victory on the Path of Initiation
with the World Teachers Jesus and Kuthumi,
Lord Maitreya and Mighty Victory***

Have you ever wondered why you pass some of the tests in life and fail others?

In 1997, Elizabeth Clare Prophet analyzed the life of Homer's Greek hero Odysseus to provide answers to this question. Her fascinating lectures on Odysseus' trials, challenges and victories offer penetrating insight into the human psychology and the path of overcoming. In this profound seminar you will study these lectures and map out your own soul's journey to wholeness.

You will also receive advanced teachings on the modus operandi of the not-self, as well as on the Cosmic Clock, a powerful spiritual tool for anticipating, understanding and passing the tests that life throws your way. In classic dictations, the ascended masters Jesus Christ, Kuthumi, Leto, Mother Mary and Mighty Victory shed invaluable light on the mighty work of restoring true wholeness to the soul. The seminar includes with a blessing of the heart chakras and third-eye chakras of the participants.

This summer, take time for introspection, reflection and deep spiritual and psychological clearance work. The program offers you a tremendous opportunity to trace the patterns of your own soul's spiritual quest--mirrored in Odysseus' adventures--and find deep inner resolution.

This retreat is for Keepers of the Flame who are willing and eager to strap on their boots, shoulder their packs and scale the steep slopes of spiritual overcoming. As Kuthumi says, "This is the moment—take the opportunity!"

"We are here to assist you to resolve all of your psychology in the very depths of being... so that you might be here to let go, let go of the human pride or whatever it is that you will not let go of..."

--Kuthumi, Summit University, 1997
