

New Era Community

This unparalleled Summit University lecture series by Elizabeth Clare Prophet is based on the book *New Era Community*, written by the Ascended Master El Morya in 1926 through his messengers Nicholas and Helena Roerich. These timeless teachings have been acclaimed by SU students and teaching assistants as one of the most outstanding SU courses.

As you listen to Mrs. Prophet's classic lectures from the late 1970's and absorb her profound insights into El Morya's teaching on the spiritual aspects of community, you will:

- * Discover how this Mercurian master transfers—like lightning—his Gemini mind to yours!
- * Catch the vision of how each of our individual heart flames makes up the community of the Holy Spirit worldwide.
- * Learn how essential the master-disciple relationship is to community and how necessary the platform of community is to your ascension in the light.
- * Find practical steps to take when you lose the sense of oneness with the master—and much more!

Studying these teachings and working with the exercises provided by the SU staff is a priceless opportunity to enrich your own life and that of those you contact every day. It is Morya's gift to all who are willing to "come into unity" through community.
